FUNDED RESEARCH

Current Grants and Contracts

HIPPY USA Education Advancement Project

The purpose of this evaluation is to provide a comprehensive and independent assessment of HIPPY USA's national implementation of new curricula as development of their LEAP professional development program.

Funding Agency: HIPPY USA.
Funding Level: \$46,238
Role in Project: Co-Principal Investigator
Project Dates: September 2013 through March 2015

Pine Hills Wellness Project

The purpose of this evaluation is to provide a comprehensive and independent assessment of the Pine Hills Wellness Coach (WC) Pilot, a program intended to improve health access and reduce costs for children age 2-6 using a community health worker intervention.

Funding Agency: Children's Home Society of Florida, Inc.
Funding Level: \$100,000
Role in Project: Principal Investigator
Project Dates: July 2013 through June 2015

Building School-Child Welfare Collaboration for Children and Youth in Foster Care

The purpose of this project is to understand how increased collaboration between public schools and child welfare agencies can improve educational outcomes for children and youth

involved in Florida's foster care system. Pilot data will be used in proposals for federally funded research.

Funding Agency: USF OCEP Internal Award
Funding Level: \$7000
Role in Project: Principal Investigator
Project Dates: July 2013 through September 2014

Trauma Recovery for Youth Initiative Evaluation (TRI)

This project is a four-year evaluation of a National Child Trauma Stress Network (NCTSN) Community Treatment and Services Center (Category III) grant, examining the implementation of Parent-Child Interaction Therapy (PCIT) in Children's Home Society of Florida's Western Division (Pensacola, FL). The evaluation uses both quantitative and qualitative methods, and includes process and outcome evaluation components as well as a fidelity assessment of the implementation of PCIT.

Funding Agency: SAMHSA National Child Traumatic Stress Initiative Center.
Funding Level: \$ 310,000. Refereed.
Role in Project: Principal Investigator
Project Dates: October 2012 through September 2016

Development of an Intervention Model to Improve Educational Outcomes of Youth in Foster Care by Decreasing Runaway Behavior

The purpose of this project is to stabilize foster care placement and improve academic outcomes youth with or at risk of disabilities through the development of a comprehensive manualized assessment and intervention model for youth in foster care.

Funding Agency: Department of Education, Institute for Education Sciences
Funding Level: \$1.3 million, Refereed.
Role in Project: Co-Investigator; Qualitative Methodologist (Kim Crosland, PI)
Project Dates: July 2011 through July 2014

Child Mental Health Initiative National Evaluation, Phase VII and Healthy Transitions Evaluation

This project includes both Phase VII of the CMHI National Evaluation and a process evaluation of the federal Healthy Transitions program. The purpose of this component of the National Evaluation is to build community capacity for system development by supporting theory-driven evaluation. This effort builds upon established work on theory of change and logic model development in funded system of care communities. The Healthy Transitions evaluation is led by Co-PI Oliver Massey.

Funding Agency: SAMHSA Center for Mental Health Services through subcontract with ICF Macro.
Funding Level: \$648,173, Refereed.
Role in Project: Principal Investigator
Project Dates: October 2010 through September 2015

Completed Grants and Contracts

Child Mental Health Initiative National Evaluation, Phase VI

The purpose of this component of the national Evaluation is to build community capacity for system development by supporting community-driven planning, data-driven decision making, and evidence-based technical through the use of theory-driven logic model development. This effort builds upon more than 10 years of established work on theory of change and logic model development in funded system of care communities.

Funding Agency: SAMHSA Center for Mental Health Services through subcontract with Macro International, Inc.
Funding Level: \$588,038. Refereed.
Role in Project: Principal Investigator, March 2010 through present. Co-Principal Investigator with Mario Hernandez February 2010.
Project Dates: October 2008 through September 2013

Trauma Recovery Initiative Evaluation

This project is a five-year evaluation of a National Child Trauma Stress Network (NCTSN) Community Treatment and Services Center (Category III) grant. It specifically examines the

implementation of Trauma Focused Cognitive Behavioral Therapy (TF-CBT) in Children's Home Society of Florida's Western Division (Pensacola, FL). The evaluation uses both quantitative and qualitative methods, and includes process and outcome evaluation components as well as a fidelity assessment of the implementation of TF-CBT.

Funding Agency: SAMHSA National Child Traumatic Stress Initiative Center.

Funding Level: \$ 480,000. Refereed.

Role in Project: Co-Investigator, August 2011 – December 2012

Project Dates: October 2007 through December 2012

New Communities System Development

The purpose of this project is to provide develop materials and facilitate training based on research results from the Research and Training Center study of system implementation for communities newly funded through the federal Children's Mental health Initiative.

Funding Agency: SAMHSA Center for Mental Health Services through subcontract with American Institutes for Research

Funding Level: \$100,000. Refereed.

Role in Project: Principal Investigator

Project Dates: October 1 2010 through September 29 2011

New Communities Theory of Change Development

The purpose of this project is to provide additional support for theory-driven evaluation for communities newly funded through the federal Children's Mental health Initiative through site-specific work on theory of change and logic model development.

Funding Agency: SAMHSA Center for Mental Health Services through community contracts with Guam and Miami, FL.

Funding Level: \$10,000.

Role in Project: Principal Investigator

Project Dates: July 1 2010 through March 31 2011

New Communities System Development

The purpose of this project was to provide develop materials and facilitate training on system of care implementation for communities funded through the federal Children's Mental health Initiative.

Funding Agency: SAMHSA Center for Mental Health Services through subcontract with American Institutes for Research

Funding Level: \$113,496. Refereed.

Role in Project: Principal Investigator

Project Dates: October 1 2009 through May 31 2011

Child Mental Health Initiative National Evaluation, Phase V

The purpose of this 5-year project was to (a) provide training and technical assistance to funded communities in creating theory of change logic models for their systems of care, (b) provide training and consultation to funded communities on the use of the System of Care Practice Review (SOCPR), (c) track logic models in order to assess system of care development over time, and (d) examine the impact of having theory-of-change logic models on the effectiveness of systems of care, including the incorporation of evidence-based practices, and the sustainability of system of care efforts in the system-of-care communities.

Funding Agency: SAMHSA Center for Mental Health Services through subcontract with Macro International, Inc.
Funding Level: \$449,812. Refereed.
Role in Project: Principal Investigator, April 2010 through completion. Co-Principal Investigator with Mario Hernandez, inception through March 2010.
Project Dates: October 2006 through September 2010

School District of Osceola County System Development

The purpose of this project was to develop online learning resources in collaboration with the School District of Osceola County and their System of Care Specialist for the purpose of building community awareness and knowledge of systems of care.

Funding Agency: School District of Osceola County
Funding Level: \$20,000
Role in Project: Principal Investigator
Project Dates: November 2, 2009 through August 31, 2010

Rapid City, SD System of Care Development

The purpose of this project was to disseminate training opportunities emphasizing system of care development and practice to children's mental health staff using distance learning technologies

Funding Agency: State of South Dakota
Funding Level: \$19,000
Role in Project: Principal Investigator
Project Dates: July 1, 2009 – June 30, 2010

Holistic Studies of System of Care Implementation. Study 2 of the Research and Training Center for Children's Mental Health

The purpose of this research was to identify strategies that local communities undertake in implementing community-based systems of care and provide greater understanding of how factors affecting system implementation contribute to the development of local systems of care for children with serious emotional disturbance and their families.

Funding Agency: Jointly funded by the National Institute on Disability and Rehabilitation Research and the Center for Mental Health Services.
Funding Level: \$459,000. Refereed.
Role in Project: Principal Investigator
Project Dates: October 2004 through March 2010

Developing Sustainable Infrastructure in Support of Quality Field-Based Practice

The increasing emphasis on adopting evidence-based practices presents a unique challenge for communities: many long-standing community-based programs and practices have not been formally established as evidence-based. This project applied emergent research regarding theories of change and implementation science in support of quality field-based practice.

Funding Agency: Children's Board of Hillsborough County
Funding Level: \$369,000
Role in Project: Principal Investigator
Project Dates: April 2007 through November 2009

Transportation Guidebook

This project provided a county-specific public transportation guide for individuals with developmental disabilities and their families. Assumed responsibility for completion of this project from faculty member who left USF.

Funding Agency: Florida Developmental Disabilities Council
Funding Level: \$130,000
Role in Project: Principal Investigator
Project Dates: November 1 2008 through May 29 2009

New Communities Strategic Planning

The purpose of this project was to provide develop materials and facilitate training based on research results from the Research and Training Center study of system implementation for communities newly funded through the federal Children's Mental health Initiative.

Funding Agency: SAMHSA Center for Mental Health Services through subcontract with American Institutes for Research
Funding Level: \$16,960
Role in Project: Principal Investigator
Project Dates: November 1 2008 through March 31 2009

Arizona Vision for Children

The purpose of this project was to provide technical assistance support to the Arizona Vision for Children through the development of a cohesive and clearly articulated theory of change for the delivery of behavioral health services for children and families.

Funding Agency: State of Arizona
Funding Level: \$32,000
Role in Project: Co-Principal Investigator with Mario Hernandez
Project Dates: March 2008 through March 2009

Child Mental Health Initiative National Evaluation, Phase IV

The purpose of this 5-year project was to study a theory-of-change approach to implementing systems of care and focus on differences between funded communities that use an active theory of change with those that do not. The project includes training and technical assistance in the theory of change approach to system of care development.

Funding Agency: SAMHSA Center for Mental Health Services through sub-contract with Macro International, Inc.
Funding Level: \$532,000. Refereed.
Role in Project: Co-Principal Investigator with Mario Hernandez
Project Dates: October 2003 through September 2008; carry forward will extend contract beyond this date.

Ottawa System of Care Practice Review

The purpose of this project was to support system development through training in the use of the System of Care Practice Review for the Ottawa Children's Coordinated Access & Referral Services.

Funding Agency: Coordinated Access Ottawa
Funding Level: \$58,709
Role in Project: Co-Principal Investigator with Mario Hernandez
Project Dates: March 2007 through May 2008

Developing Logic Models for the CMHI National Evaluation

This project funded initial work to develop theory of change logic models with communities funded through the Child Mental Health Initiative and included development of a national logic model for this national program.

Funding Agency: SAMHSA Center for Mental health Services through subcontract with ORC Macro International, Inc.
Funding Level: \$600,000. Refereed.
Role in Project: Project Director (PI Robert Friedman, Co-PI Mario Hernandez)
Project Dates: October 1999 through September 2005

Community-Based Theories of Change, Research and Training Center for Children's Mental Health, Study 4

A five-year study investigating the processes by which community-based human services organizations conceptualize, operationalize, and implement service policies.

Funding Agency: Jointly funded by National Institute on Disability and Rehabilitation Research and Center for Mental Health Services.
Funding Level: \$539,000. Refereed.
Role in Project: Co-Principal Investigator with Mario Hernandez
Project Dates: October 1999 through September 2004

Developing Logic Models for Quality Improvement, Technical Assistance, and Evaluation

This project involved a comparison of population, outcomes, and strategies across funded programs for the purpose of developing strategies for quality improvement and decision-driven evaluation.

Funding Agency: Juvenile Welfare Board of Pinellas County
Funding Level: \$5000
Role in Project: Co-Principal Investigator with Mario Hernandez
Project Dates: March 2000 Through January 2001

Development of a Community-Based Theory of Change

This project involved facilitating a group of key Children's Board program managers in the articulation of a multi-level theory of change for Children's Board funding priorities.

Funding Agency: Children's Board of Hillsborough County
Funding Level: \$6097
Role in Project: Facilitator (PI Mario Hernandez)
Project Dates: December 1998 through November 1999

System Accountability Study, Research and Training Center for Children's Mental Health Study 3

This project outcome utilization in exemplary programs/agencies within a self-evaluation framework. Technical assistance regarding the implementation of outcome-oriented information systems was provided.

Funding Agency: Jointly funded by the Center for Mental Health Services and the National Institute on Disability and Rehabilitation Research
Funding Level: \$517,290. Refereed.
Role in Project: Project Director (PI Mario Hernandez)
Project Dates: October 1994 through September 1999

Building Collaboration in Systems of Care

A national study of collaboration among funded system of care communities that was part of CMHS's Promising Practices Initiative.

Funding Agency: SAMHSA Center for Mental Health Services
Funding Level: Unknown
Role in Project: Project Director (PI Robert Friedman)
Project Dates: November 1997 through June 1998

Proposals Under Review**Achieving Competitive Customized Employment through Specialized Services (ACCESS)**

Funding Agency: NIH/NIMH
Funding Level: \$672,750
Role in Project: Qualitative Methodologist (Tammy Jorgenson, PI)
Project Dates: July 2014 through June 2017

Unfunded Grants and Contracts**National Evaluation of SAMHSA System of Care Expansion**

The purpose of this portion of the national evaluation was to provide a comprehensive and independent process evaluation of system of care expansion implementation nationally.

Funding Agency: SAMHSA through subcontract with ICF International, refereed.
Funding Level: \$1,558,386
Role in Project: Principal Investigator
Project Dates: October 2013 through September 2018

Framing, Uncertainty, and Context: Understanding Evidence Acquisition, Interpretation, and Use in State Home Visiting Planning.

The purpose of this study is to understand the influence of context and cognition on evidence use and early implementation success among states engaged in the federally-funded MIECHV initiative.

Funding Agency: WT Grant Foundation
Funding Level: \$560,000

Role in Project: Co-Principal Investigator, Phyllis Panzano PI
Project Dates: 2012 - 2015

Child Welfare/TANF Collaboration: Evaluation of Kinship Navigation

The purpose of this project is to conduct the local outcome and process evaluation for the Children's Home Society of Florida's (CHS) demonstration of Kinship Navigation as part of an ACF-funded demonstration project as well as participate in any cross-site evaluation activities required by the funder.

Funding Agency: U.S. Department of Health and Human Services, Agency for Children and Families
Funding Level: \$300,000
Role in Project: Principal Investigator
Project Dates: October, 2012 through September 2016

Frameworks for Risk and Protective Factors

The purpose of this project was to develop a conceptual model of risk, resiliency, and protective factors and make recommendations for an ACYF research agenda.

Funding Agency: Agency for Children, Youth, and Families through subcontract with ICF International, Inc.
Funding Level: \$98,961
Role in Project: Principal Investigator
Project Dates: 2011- 2013

GEAR UP Opening Doors

This collaborative partnership between USF and Pasco County, FL school system sought to improve academic success and positive youth development for at risk youth through a comprehensive array of interventions.

Funding Agency: U. S. Department of Education
Funding Level: \$1,857,361
Role in Project: Principal Investigator for Evaluation, Ruby Joseph project PI
Project Dates: 2011 - 2016

Mentor Matching Characteristics Study

The purpose of the Mentoring Match Characteristics Study (MMCS) was to understand the degree to which the closeness between mentor and mentee characteristics (*natural fit*) can improve mentoring effectiveness (measured by match length and relationship quality) and youth outcomes (as measured by school behavior and academic success).

Funding Agency: Office of Juvenile Justice and Delinquency Prevention
Funding Level: \$465,899
Role in Project: Co-Investigator, Ruby Joseph PI
Project Dates: 2011 - 2014

Use of Research Evidence within Community Coalitions

The purpose of this study is to understand factors that influence the acquisition, interpretation, and use of research evidence within community coalitions.

Proposed Funding Agency: W. T. Grant Foundation
Proposed Funding Level: \$500,000
Proposed Role in Project: Co-Principal Investigator
Proposed Project Dates: July 2010 through June 2013

CURIC Research Infrastructure Collaborative

This project develop an infrastructure to transform the conduct, dissemination, and utility of locally-relevant data on mental health services and outcomes for children in Florida's child welfare system through a partnership between the Department of Child and Family Studies and the Children's Home Society of Florida..

Funding Agency: National Institute of Mental Health, RC4
Funding Level: \$500,000
Role in Project: Co-Investigator
Project Dates: To be determined

Development of an Intervention Model to Improve Educational Outcomes of Youth in Foster Care by Decreasing Runaway Behavior

The purpose of this project was to stabilize foster care placement and improve academic outcomes youth with or at risk of disabilities through the development of a comprehensive manualized assessment and intervention model for youth in foster care.

Funding Agency: Department of Education, Institute for Education Sciences
Funding Level: \$1.3 million
Role in Project: Co-Investigator @ 10% FTE; Qualitative Methods Expertise
Project Dates: 3 years beginning March 2010

Using Evidence to Improve Programs: Perceived Invitation/Imperative & Outcomes

This study will examine how top managers affiliated with each of 14 Divisions of the Children's Home Society of Florida (CHS) interpret CHS' annual assignment to apply evidence to develop or significantly improve at least one program innovation focused on breaking the cycle of child abuse and neglect.

Proposed Funding Agency: W. T. Grant Foundation
Proposed Funding Level: \$500,000
Proposed Role in Project: Co-Investigator
Proposed Project Dates: July 2010 through June 2013

Longitudinal Study of System Development – CMHI National Evaluation Phase VI

This study will develop generalizable knowledge of best practices in system of care development through an investigation of the relationships, processes and structures by which newly-funded communities 1) conceptualize system change, 2) build interagency collaboration and develop multi-agency integration of functions, 3) develop systems within a framework of family-driven and youth-guided processes and policies, and 4) organize systems of care for the integration of evidence-based practices.

Proposed Funding Agency: SAMHSA Center for Mental Health Services as a sub-contract with Macro International, Inc.
Proposed Funding Level: \$974,322
Proposed Role in Project: Principal Investigator
Proposed Project Dates: October 2008 through September 2013

Center for Research on Behavioral Health Systems

This project was as Co-Director of the Methods Core of a proposed Advanced Center for Interventions and Services Research, David Shern, PI.

Proposed Funding Agency: National Institute of Mental Health
Proposed Funding Level: \$8,001,371
Proposed Role in Project: Methods Core Co-Director (with Roger Boothroyd and Steven Banks)
Proposed Project Dates: July 2005 through 2010

DEPARTMENT RESEARCH

Current Department Research

CHS Community Health Worker Initiative

The USF Department of Child & Family Studies is partnering with the Children's Home Society of Florida to pilot a community health worker program to intended to perform outreach, engagement, and health education to improve health outcomes, address health disparities and reduce overall health care costs by empowering individuals to access services and take charge of their own health care. This was developed into a funded evaluation of the pilot project in 2013. Potential for statewide expansion.

Role in Project: Co-Facilitator
Project Dates: August 2012 through June 2013

Michigan Action Learning Network for Integrated Primary and Behavioral Healthcare

The USF Department of Child & Family Studies is partnering with Community Mental Health Agencies in five Michigan counties to develop strategies to pursue integration of primary and behavioral healthcare. Potential for publication and expansion into funded research.

Role in Project: Network Facilitator
Project Dates: August 2012 through present

Community Solutions at USF

Community Solutions is a national resource for system planning and community capacity building. Formed by research faculty and staff from the USF Department of Child & Family Studies, the mission of Community Solutions at USF is to provide services and training that will equip individuals, communities and states with the knowledge and skills needed to effectively provide behavioral health services and supports to all children, youth and their families.

Role in Project: Faculty Member
Project Dates: October 2011 through present

Developing Community Partners in Research: Children's Home Society of FL, Inc.

The purpose of this project is to develop opportunities for externally funded research, evaluation, training, and technical assistance in areas of shared interest between the Department of Child and Family Studies in partnership with the Children's Home Society of Florida, Inc. The goal is to facilitate multiple involvements across a broad range of faculty in our department and to target

priority areas aligned with the shared vision and mission of the two organizations.

Role in Project: CFS Project Director
Project Dates: October 2009 through present

Completed Department Research

Actualizing Empowerment: Developing a Framework for Partnering with Families in System Level Service Planning and Delivery

The purpose of this research is to identify the structures, processes and relationships that support and impede system level service planning and delivery decisions for families within systems of care. This secondary analysis of data from Holistic Studies of System of Care Implementation will result in a framework for implementing family driven care as well as a rubric to outline specific strategies and performance measures to assess progress.

Role in Project: Co-Investigator
Project Dates: April 2010 through May 2011

Online Learning in Children's Mental Health

The purpose of this project is to develop CFS capacity to provide online in-service training in children's mental health. This effort involves establishing an infrastructure for online in-service training that includes development and redesign of in-service training content, establishing CE approval and processes for in-service courses, developing and maintaining components of a host website, establishing payment mechanisms, and national outreach to state and local state and local administrators, staff, and family organizations.

Role in Project: CFS Project Director
Project Dates: April 2009 through October 2011
