

CENTER FOR AUTISM & RELATED DISABILITIES at USF

ASD & Mental Health

Autism Spectrum Disorder

CONFERENCE

Nov 6

2015

**Embassy Suites
Tampa – USF/
Near Busch Gardens
Tampa, FL**

*Join us for a conference on autism spectrum disorder
and mental health for professionals and families.*

Research shows the prevalence of mental health issues within the population of people diagnosed with ASD ranges upward toward 70%. CARD's goal is to offer attendees practical information to help support others in need. Our presenters will offer topics of great interest such as current information in the field today, strategies to work with young children with challenging behavior, interventions for anxiety, counseling, and managing depression. We hope you will join us for this great learning opportunity!

Keynotes:

Dr. Mohammad Ghaziuddin &
Rebecca Klaw

Registration is **FREE!**
