

Announcing New Graduate Level Course:

Issues & Trends in Developmental Disabilities

MHS 6065.001

This exciting interdisciplinary course will provide students with a rich curriculum that addresses health, educational, social, cultural, and economic issues related to developmental disabilities across the life span. Further, it will address the latest trends in policy, legislation, and services that impact these very critical issues.

This 3-credit course will be taught by interdisciplinary faculty, including guest speakers, individuals with disabilities, and family members involved in advocacy and policy efforts. Course components include:

- group projects focused on disability issues and improving the lives of persons with disabilities
- interactive class activities highlighting current events related to class themes
- a disability enriched curriculum with focused readings
- lively class discussions

Instructor: Liz Perkins, PhD, RNMH
Location: MHC 1503
Day/Time: Wednesdays, 5:30-8pm
