Resources for Eliminating Behavioral Health Disparities

The Department of Child & Family Studies (CFS) at the University of South Florida, in partnership with the Center for Community Learning, Inc. is the Cultural & Linguistic Competence (CLC) Hub of the Technical Assistance Network for Children's Behavioral Health (TA Network). The TA Network is funded by the Substance Abuse and Mental Health Services Administration (SAMHSA)/Comprehensive Community Mental Health Services for Children and Their Families Program (CMHI).

The CLC Hub is regularly reviewing and cataloging resources on a variety of topics. The resources are scored using criteria in four categories: access, availability, utilization and quality. They are then categorized to ease in navigation, such as:

- Assessment Tools
- CLAS Implementation
- Disparities
- Evidence Based and Effective Practices
- Families
- General CLC Tools
- Mental Health and Trauma
- National/State Organization Websites
- Psychotropic Medication
- Specific Populations
- Statistics
- System of Care Collaborations
- Training Tools
